March 19th. 96.

My Dearest Love,

Our 6 months anniversary today — how the time has flown I am so glad you will so soon be off for a rest — Do look trouble to rest at all while you are in Dijon — You must be let us every strain and feel that you have no duties or dail ever to perform. I will read an old letter every day

and will not feel
at all slighted.

I am now writing
by daylight at 6 o'clock
How I revel in the
lengthening of the days.

Had such lovely
letters from Elder &
Will, my two brothers
this morning, and one
from Alice saying she
had heard from you

I will enclose Will's
which you can return
so that I can answer
it. We have had

terribly damp wet weather for about a week now, and consequently my rheumatism is here in full force - but am hoping for a change soon -

Now Goodnight darling

Your own loving

Grace
